

See ROI in 30 Days or Less with Your Free Custom Mobile Workspace*

Extend your SharePoint investment and empower your mobile teams

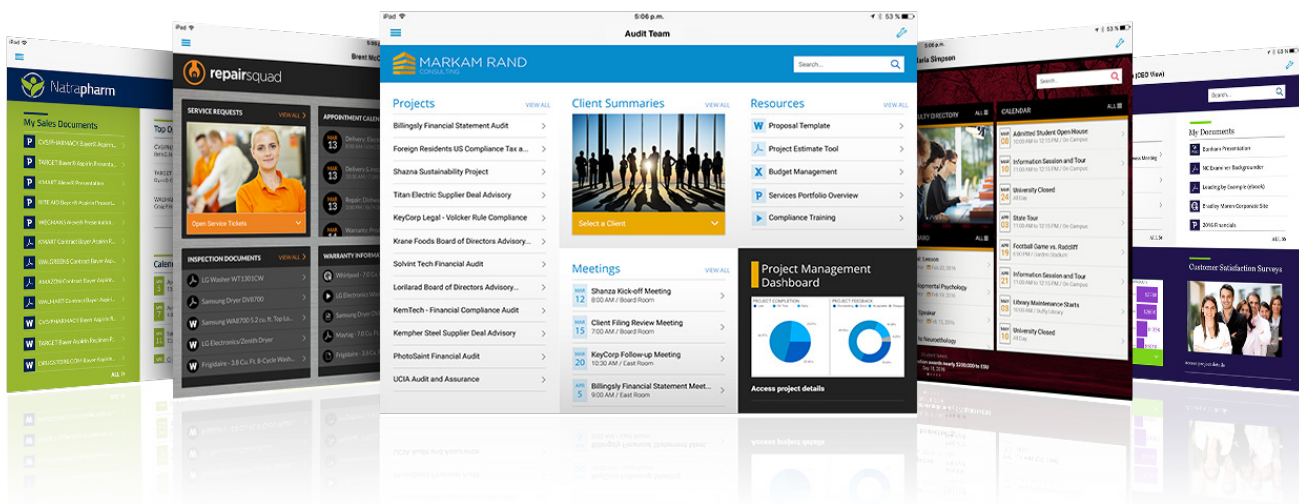

Your current SharePoint investment is already helping your organization collaborate and become more efficient. Now with the latest release of **SharePlus**, give your business teams everything they need in one location with personalized and central access for documents and data in the cloud and on premise.

If your company has been pondering the right time to begin implementing a SharePoint mobile solution, the answer is: **Right now.**

To help companies put themselves on the fast track to enable their modern workforce, Infragistics is offering businesses that sign an Enterprise License Agreement before 5/15/17 a free Custom Mobile Workspace that will have your team up and running in 30 days*.

Custom Mobile Workspaces help eligible enterprise companies select a specific business scenario and begin implementing a focused environment for their business team needs or specific job roles.

Education, Sales, Field Service Operations, Executive Portals, and Professional Services.

The goal of a SharePlus Custom Mobile Workspace is to help you:

- ✓ **Stay Connected** Give your team everything they need in one location with personalized and central access for documents and data in the cloud and on premise. Take the best of what SharePoint offers on the go including offline sync capabilities, lists, calendars, announcements, tasks, discussions, social features and more.
- ✓ **Customize Your Workspace** Adapt SharePlus to match the way you work. Create customized mobile workspaces to give anyone in your organization an experience tailored to their role. Meet the unique needs of your specialized business teams by providing them the ability to manage projects more efficiently, having immediate access to critical information and improved collaboration.
- ✓ **Include the Power of Data** Compliment your content and integrate rich data visualizations into your workspace. Enable your team to achieve better results with a data driven business. Transform your SharePlus Enterprise experience by pairing your content with ReportPlus dashboards. Discover insights by visualizing data within any SharePoint list or Excel file stored in your document library
- ✓ **Security** Increase the security of your solutions by enabling advanced features within SharePlus including; content and data encryption, wiping and locking your mobile application and enforcing additional security policies. SharePlus is deeply integrated with your MDM solution providing consistent security support and increased capabilities including security features optimized for SharePoint.
- ✓ **Support the Most In-Demand Mobile Use Cases** Today's mobile workforce is driving you to create solutions for the new ways they work. Offer your customers experiences only available with native solutions like the ability to take pictures, record video and audio, and add geo location information to SharePoint from their mobile device. Scan QR codes and RFID tags and automatically link to relevant content and data on SharePoint.

***Program Dependencies & Prerequisites for: See ROI in 30 Days or Less with Your Free Custom Mobile Workspace**

To qualify for Infragistics Free Custom Mobile Workspace offer, companies must complete a purchase of a minimum of 100 new SharePlus enterprise or SharePlus / ReportPlus bundle licenses from Infragistics. New licenses purchased cannot be combined with prior purchases to qualify for the offer. Custom Mobile Workspaces will be delivered 30 days from the start of the initial engagement date, post-sale. All technical prerequisites must be met during the initial post sale engagement in order to set 30-day delivery of the Custom Mobile Workspace. Integration of the deliverables may extend past the 30-day mark depending on the complexity of the SharePoint environment. Custom Mobile Workspace design is limited to a pre-defined set of layouts, themes and templates as defined by the Supported Lists and Libraries below. Initial engagement date will be set at a mutually agreed upon time between customer and Infragistics during a 15 business day period commencing immediately upon payment being received. Custom Mobile Workspaces can link to ReportPlus. Additional fees will be assessed on a per project basis for Enterprise customers purchasing the SharePlus / ReportPlus bundle that would like to create new ReportPlus dashboards as part of their Custom Mobile Workspace.

Technical Prerequisites:

- Workspaces support iOS8 and above.
- Choose between 3 iPad layouts. An iPhone layout will also be provided. The iPad layouts consist of 4-6 tiles along with one optional News Ticker as a header or footer tile within the Workspace.
- There are a predefined number of views per tile.
- Only one view can be specified in a given tile.
- Only out of the box (OOTB) SharePoint Content Types will be supported within parameters of each Custom Tile.
- The max number of items shown in a Custom Mobile Workspace tile will be limited and scrolling will apply when necessary.
- Only View and Open actions are available for documents or items inside the SharePlus Custom Mobile Workspace.
- SharePoint sites utilizing Taxonomy or Managed Navigation are not supported without additional customizations.
- SharePoint Publishing sites are not supported without additional customizations.
- The OOTB SharePlus offline sync feature is used for offline access.
- Workspaces fully leverages the standard OOTB SharePlus authentication and authorization features.
- Branded logo and images are supported in specific tiles and must be provided with aspect ratio and file types as defined by each tile.

Supported Custom Tiles:

- Title - Static content, maximum two lines of text and optional logo
- News Ticker – Requires standard announcement list on SharePoint
- List of Documents – Requires a standard document library on SharePoint
- Slideshow – Requires a standard picture library on SharePoint
- List of Items – Supports any type of SharePoint List, the title column will be used to present the data
- Highlighted Resources – Requires a URL to be opened inside of SharePlus, a header, sub header and optional image
- Sites Dropdown – Requires URL of root site, optional image
- Sites List – Requires URL
- Discussions – Requires standard SharePoint Discussion List
- Events – Requires standard SharePoint Calendar List
